ANA CAROLINA CURI DE SALES

- Curitiba, Paraná, Brazil
- Contact: via LinkedIn
  https://www.linkedin.com/in/ana-sales-1b7235372/

Objective

Seeking an internship opportunity in Information Technology, with an interest in data, where I can develop my knowledge, gain hands-on experience and contribute to the team.

Education

January 2024 - January 2028 **PUCPR** (Pontifical Catholic University of Paraná), Curitiba, PR, Brazil
Bachelor's Degree in Computer Science · In progress

Projects

ThermoAgro – Python, Flask, MQTT and SQLite

- Web dashboard to monitor temperature, humidity and level of an agricultural silo in real time
- Device communication over MQTT and live interface updates with Socket.IO
- Remote control of an actuator (silo door) with a log of every activation
- Admin area with access control and data persistence in SQLite

Network Infrastructure – Packet Tracer

- Implementation of a network between headquarters and a branch office
- Configuration of VLAN, DHCP, NAT and VPN
- Configuration of DNS servers and routing

Remain Luxury (ModaLuxo) – React, Node.js, Express and MySQL

- Second-hand luxury fashion marketplace with catalog, filtered search, cart and orders
- React, Tailwind CSS and Vite frontend; Node.js and Express REST API with JWT authentication
- Item listing with image upload and chat between buyer and seller
- MySQL database with 9 tables (users, products, orders, reviews and conversations)
- Code at github.com/AnaSaless/remain-luxury

Hard Skills
